I understand that your Organization has been extending financial support for the last 4 years to the Cancer Care Society, a registered Charitable Society established at Shimla, which has been providing financial, moral and emotional support to the Cancer Patients especially to children admitted in the General Ward of the Regional Cancer Hospital in IGMC, Shimla. This Organization being managed by volunteers is doing a commendable job in helping to provide treatment to patients who are very poor and without its help, the expensive treatment would be out of their reach. I hope you will continue to provide support in future also in their endeavors.

Children's Hope Foundation,
Dubai.

Yours/sincerely,
Virbhadr Singh
